

Profile (as it will appear in the election materials)

Lucy Hall

Lucy Hall is eligible to stand for election as a resident of the Shire of West Arthur.

I moved to Arthur River 5 years ago because I fell in love! I now run a 6,000 acre mixed farming enterprise with my partner. He is a 3rd generation farmer, and we are now building up the farming asset together. I threw myself into the district as quickly as I could. Joined a Women in Farming branch, the RRR Network, became Secretary of the Arthur River Country Club, and then joined the Board of Rural Edge Australia where I eventually became Chair.

I have always had a passion for agriculture, and now that I'm living and breathing it I want to ensure that our communities are well set up to thrive, not survive. Thriving communities means there are local businesses, schools, churches, health care and social activities. It means we are all able to collaborate and make new projects happen.

I understand the challenges of living in a regional area and want to change these into opportunities.

I have a strong background in strategy and I know I will make a difference as a councillor.
